DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 6/30/04, with respect to double patenting have been fully considered and are persuasive. The double patenting rejection has been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-87 are rejected under 35 U.S.C. 112, second paragraph, for failing to differ substantially from each other and for being unduly multiplied. See CFR 1.75 (a) and (b). In view of applicants' invention, applicants have presented an unreasonable number of claims which, in view of the nature and scope of the applicants' invention, are repetitious and multiplied, the net result of which is to confuse rather than to clarify. See MPEP 2173.05 (n).

Applicants are required to select no more than 20 claims for purpose of examination.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 3,109,790 and US 5,569,300 are relevant prior art references.
